HERITAGE OF CRAFTSMANSHIP

# Heritage of Craftsmanship

Established in Porto in 2008, Munna is a furniture design brand renowned for creating handmade upholstery with unmatched craftsmanship, seamlessly blending noble materials and timeless design, for both commercial and residential projects.

---

Made by hand in Porto, Munna's pieces honour the profound heritage of craftsmanship, while drawing inspiration from history's most influential artistic periods, using high quality fabrics such as cotton velvet, twill, leather and silk; the finest wood veneers, such as ebony, walnut and rosewood; sumptuous gold, silver and copper leaves, metal details in brass, nickel and copper, and superior lacquers. Munna's designers and craftsmen are committed to delivering only highest standard upholstery, creating armchairs, sofas, stools, beds and folding screens that never lose their power of amazement.

The brand's philosophy is to create meaningful design with lasting appeal, matched by signature exquisite finery. Munna has become an international reference in the creation of timeless design that infuse a higher form of living.

The new classics, by MUNNA.

# The new Designs

Munna's new designs and expanding product series embody the soul every living space needs. From the colourful range, to the interplay between styles and shapes, the charisma of a Munna piece is undeniable.

05

---

# The new fabrics

Munna's new fabrics not only meet the industry's highest standards, but also widen the range for interior designers and architects. The main launches are two new Chenille fabrics, that not only come in a superb range of colours, but also meet the REACH and Oeko-Tex environmental standards, tested to ensure safe use for humans, animals and the environment. The launch includes new bouclé colours, new cotton velvets and more. While the brand also works with fabrics the clients provide, the wider portfolio of options represents a world of possibilities. For the aesthetes, the difficulty is choosing just one.

# Modular, just like life

This is a story of dualism. How the seemingly opposed is complementary, interconnected and interdependent. One exists in relation to the other.

Feminine and masculine, cozy and open.

An exercise of balance, harmony of taste, soul and handcraft.

# This must be the place

A place to live life, and to escape from it. Sleeping and dreaming. For passion, for love, for family.

Beds can be quiet and graceful, as sleep should be. Yet, beds can also be an expression of personality, complement one's charisma. And become the statement in a room.

Munna's beds are the quintessence of eclectic harmony. An idiosyncratic aesthetic that mixes and matches the historic and contemporary.

The old and the new. Connecting the dots with a soulful approach to design, curated by an alchemy of color, emotions and handcraft.

# Munna's commitment to the Crafts

In our times, the crafts stand proudly as tradition, as the paradigm shifts towards the rigors and competitiveness of technology.

To create products founded on the crafts, fostering and furthering artisanship with an integrated design approach is not a just a celebration of tradition. It's part of a continued effort of research and development of the traditional arts & crafts.

Munna's uncompromising approach to local craft and the curated eclecticism of its designs have been the trademarks of a brand that is fostering the path for design made in Portugal.
